The whiche with you dyde make a praye
ye had ben dampned by ryght and equyte
In to this pytte full of all iniquyte
Wherfore thanke god that sent you wysedome
Suche deedly perylles for to ouercome

Also the lady with the cup of golde
Here condemned for her grete pryde
In endeles payne bothe hote and colde
Where in for synne she shall abyde
This is a dongeon longe and wyde
Made for them that do synne dedely
And of cryst Ihesu wyll axe no mercy

This is a place full of all derkenes
Wherin be serpentes foule and odorous
This is a place of mortall heuynes
Where I sawe deuyles blacke and teduous
Dampned soules turmented with hokes rygorous
This is the hyppermooft parte of hell
In whiche paynyngis dampned do dwell

For as moche as they lacked instruccyon
For to beleue in god omnyppotent
They haue deserued the lesse correcyon
Yet theyr payne haue none extynguyshement
For they are dampned by true sentymment
For theyr byleue and false idolatry
That made theyr goddes of mars and mercury

Then wente we downe to an other baute
Where Jewes laye in grete paynes stronge
Vertue.

Of Jherusalem and the bytygn wate

Now yet that he dyde suffre passyon
Bothe for them and all mankynde
Nothet yet of his resurreccyon
In theyr byleue they are so blynde
Yet as in bokes wryten we do fynde
That they haue ben taught many a tyme
For to forsake theyr owne false cryme

Than wente we downe to a depper vale
Where crysten soules dyde wepe and crye
In grete sorowe payne and bale
Brennyng in fyre moost hote and drye
And some in Ice ryght depe dyde lye
For to expresse it is impossyble
The paye is there they are l. horry.

These crysten men knowe goddes la
And euery daye had informacyon
Frome deuelyshe werkes them to witte drawe
That they sholde not fall in dampnacyon
Yet wyl they not make sequestracyon
Of goddes commaundement but synne deedly
Therfore here are they dampned ryght wylly

And thou haddest sette thy delectacyon
In flesshely pleasure and bayne gloze
Thou haddest ben here without saluacyon
Without thou of god had axed mercy
Who that it axeth shall haue it truly
He be contryt and do repens
